How Does Call and Play Protect You?

We specifically designed Call and Play so that we minimise the risk of abuse of this program and hence Account suspension.

1. You can not automate any contact requests with any Skype users
2. You can only import contacts who have already agreed to share information.
3. You can not search and collect any contact information.
4. You can only send 'chat' messages to your Skype contacts.
5. If you import Skype contact phone numbers, they are already present on your contacts information and already agreed upon to be public by the contact themselves.
6. Outside Telephone/Cell Numbers for the purpose of calls and SMS text to outside numbers can not be harvested by Call and Play, if you use purchased telephone lists, you do so at your own risk.

Call and Play just want to make it clear that any blatant abuse of this program can cause an account suspension and we will not be held responsible in any way shape or form if this occurs, including any loss of Skype Credit.

Please do not post derogatory comments on forums and websites, criticise Call and Play for causing your account to be suspended if you have blatantly abused this product.

The opinions above are not supplied by a Lawyer, only an interpretation by Call and Play it is up to you to decide if this product is right for you. The full Skype EULA is <http://www.skype.com/intl/en-us/legal/terms/tou/>
