Live Feed Rotifer Production

Step 1 Rotifer Production

This screen is used for you to record your details on your Rotifer production. The screen is split into details of when it was checked, what environment information was recorded and last details of the Rotifer. There is also a Disease Checks Secondary Page.

The screenshot shows a software window titled "Rotifer Production" with a blue title bar and standard window controls. Inside, there are two tabs: "Details" (selected) and "Disease Checks". The "Details" tab contains several input fields and sections. At the top, there are fields for "Check Date" (a date picker set to 02/04/2006), "Check Time" (a time picker set to 01:35), "Tank / Pond Id" (a text field with a question mark icon), "Tank Group" (a text field), and "Technician" (a text field with a question mark icon). Below these is a yellow header section titled "Environment Info". This section contains two columns of input fields: "DO (mg/l)", "Temp (c)", "NH3", and "DO (% Sat)", "Salinity", "NO2". Another yellow header section titled "Rotifers Info" contains "Rotifer Density (/ml)" and "Fertility (%)". A third yellow header section titled "Feeding Details" contains "Algae Added (gm)" and "Algae Age (Days)". Below this is a yellow header section titled "Daily Cleaning Check List", which contains several dropdown menus: "Screens", "Air Stones", "Tank", "Floc Traps", "Fridge", "Hoses", and "Buckets". At the bottom of this section is an "Enrichment Additives" text field. The bottom of the window features a row of buttons: "Save", "Find", "Delete", "Reset", "Print", "Refresh", "Cancel", "Help", and "Import". Above the buttons are navigation icons: a keyboard icon, and arrows for back, forward, and search.

Step 2 Rotifer Production Parameters

You can use this screen to record details of the environment parameters for minimum and maximum settings. These details are used to compare the results from the Rotifer production screen in the Rotifer Production Report.

Hatchery Assist www.aquaassist.com

Rotifer Production Parameters

Scheme Name

Is Default

Minimum Environment Settings

DO (mg/l) <input type="text"/>	DO (% Sat) <input type="text"/>	Temp (c) <input type="text"/>
Salinity <input type="text"/>	NH3 <input type="text"/>	NO2 <input type="text"/>

Maximum Environment Settings

DO (mg/l) <input type="text"/>	DO (% Sat) <input type="text"/>	Temp (c) <input type="text"/>
Salinity <input type="text"/>	NH3 <input type="text"/>	NO2 <input type="text"/>

Step 3 Rotifer Harvest Screen

This screen captures the details of every time you harvest the rotifer to be used in your Hatchery / Nursery area.
