Feedback

Ap PDF Password Recovery (pdf decrypt) v3.0

The PDF Password Recovery can be used to decrypt protected Adobe Acrobat PDF files, which have "owner" password set, preventing the file from editing(changing), printing, selecting text and graphics(and copying them into the Clipboard), or adding/changing annotations and form fields. Pdf decrypt is being done instantly. Decrypted file can be opened in any PDF viewer(e.g. Adobe Acrobat Reader)without any restrictions -- i.e. with edit/copy/print functions enabled. All versions of Adobe Acrobat are supported.

The standard security provided by PDF consists of two different methods and two different passwords. A PDF document may be protected by password for opening ('user' password) and the document may also specify operations that should be restricted even when the document is decrypted: printing; copying text and graphics out of the document; modifying the document; and adding or modifying text notes and AcroForm fields (using 'owner' password).

Products	Quantity	Price(USD)	Download	Buy
PDF Password Recovery windows (GDI)	1	\$27.90	0.8Mb	Buy Now
	2-9	\$19.90 each	Download	
	10-more	\$14.90 each
