

## Define the path to the file you want each page to print from.

Available for every single page. This is extremely useful if you want to keep the pages of your e-book small in size but also be able to print at high quality. First set the path to the page to be used in your XGBookMax, and then the path to the page to be used for printing (this page will be loaded only for printing. If you dont define it, the file in the attribute "path" will be printed).

- **Related xml file structure**

### <note 1> xml file format

Here below is an example of the xml file that contains the XGBookMax structure and all the essential data:

```
<!-- XML structure and essential data for XGBookMax -->
<Root>
  <Book>
    <Page label="Front Page" path="page/page_1.jpg" printPath="page/print_1.jpg"/>
    <Page label="Page 2" path="page/page_2.jpg" printPath="page/print_2.jpg"/>
    <Page label="Page 3" path="page/page_3.jpg"/>
    <Page label="Page 4" path="page/page_4.jpg"/>
  </Book>

  <!-- CONFIGURATION NODES -->
  <!-- E-Book Configuration Node -->
  <Configuration_Book centerShadowVisible="true" bookThick="8" shadowAlpha="40" maxScale="300"
minScale="20" scaleStep="30" canUseKeyboard="false" clickAreaWidth="600" clickAreaHeight="600"
zoomVisibleAreaScale="120"/>

  <!-- Controller Configuration Node -->
  <Configuration_Controller customControlPanel="myControlPanel" customPrintPanel="myPrintPanel"
visiblePolicy="always" themeColor="0x00FF00" positionX="10" positionY="10"/>

  <!-- Slide Show Configuration Node -->
  <Configuration_Slide showSlidePanel="true" themeColor="0x999999" customPlayButton="btn_slide_play"
customStopButton="btn_slide_stop" slideInterval="1" isLooping="true" positionX="20" positionY="80"/>

  <!-- Thumbnail Panel Configuration Node -->
  <Configuration_Thumbnail title="Select Thumb" themeColor="0x999999" customButtons="myButtons"
titleColor="0x0000FF" bgColor="0xFFFFFFFF" borderThick="1" borderColor="0x000000" borderRound="6"
font="Verdana" usingEmbedFont="false" fontSize="12" fontColor="0x000000" bold="true" italic="false"
rollOverScale="120"/>

  <!-- Info Button Configuration Node -->
  <Configuration_Info link="info/info.html" targetWin="_blank"/>

  <!-- Help Button Configuration Node -->
  <Configuration_Help link="mailto:lingostar@daum.net" targetWin="_self"/>

  <!-- Sounds Configuration Node -->
  <Configuration_Sound rollOverSound="sndOver" clickSound="sndClick" changeSound="sndChange"/>
</Root>
```

- **Related xml node description**

Node		attributes	
<b>&lt;Page&gt;</b>	This is the node that defines each page in XGBookMax. The attribute "path" must be defined in this node. The attribute "label" is optional. If you define it, a label will appear in the ComboBox in the Controller.	<b>printPath</b>	The path to the file to be printed when you select print button. If you don't define it, the file defined in the attribute "path" will be printed.
