

Thank you for using YourStamp™.

YourStamp™ has been designed to give anyone running a smaller business a fast, cheap and impactful way to make their marketing budget go further.

It's also designed to let you have fun at home, making stamps for birthdays, invitations and celebrations.

By making YourStamp™ stamp images featuring your products, logo, packaging or premises, and including these in the header of your envelope templates in MS Word, or any other word processing or dtp application, you can add the high-impact appearance of your own, full colour postage stamps, complete with headline, URL, phone number or tag line, to every envelope you mail.

YourStamp™ makes every single envelope you mail a part of your marketing effort.

Remember though...YourStamp™ is for marketing purposes only.

You must pay postage in the usual way.

INTRODUCTION

IS A TRADEMARK OF BIG LESSONS LTD REGISTERED IN ENGLAND No 5237822
FOR FURTHER ASSISTANCE OR INFORMATION EMAIL INFO@BIGLESSONS.NET

YourStamp™ let's you make a personalised stamp in 3, simple steps.

Registering your YourStamp™ application

If you have downloaded YourStamp™ but not yet purchased a Key, your stamps will be created with the YourStamp™ logo watermarked onto the image. To disable the watermarking, purchase a key when invited to do so by the dialog displayed on opening the application, or by clicking [here](#).

Choosing the picture to use in your stamp

To select an image from which to make a stamp, click 'CHOOSE YOUR PICTURE' and use the dialog to select an image from your hard drive.

YourStamp™ supports most popular image formats, including digital camera files.

The image you select may be any size. YourStamp will scale it to the right size and resolution and discard all surplus data to minimise the size of the generated file.

YourStamp™ generates your stamp image as a .jpg file measuring approximately 48mm x 25mm at a resolution of 300 dpi, which ensures a good quality of printed image.

Advancing to the next stage of making your stamp

When you have selected the image from which you wish to make your stamp, it will be displayed in the YourStamp™ PREVIEW WINDOW.

Click NEXT to advance to the next step, or CANCEL to begin again.
